Suggestions for Improvement:	In terms of the variety of assessments, Laura did a nice job of incorporating many types. I'd be interested in seeing how Laura continues to use those assessments as she continues to plan lessons that build on one another. In the lessons taught over the last two weeks, the learning environment was always set as a whole group. In the future, Laura may want to consider planning lessons for small groups based on individual or small group needs. Laura is off to a great start in both of these areas. She is also very reflective in her practice (I'd consider this beyond expectations).
Overall Rating:	Proficient
Suggestions for Improvement:	Laura does an incredible job building a lesson that connects to prior knowledge, provides any vocabulary or background that students may be lacking, teach the new content in an engaging way that incorporates many learning styles, and then using various informal and formal assessments throughout the lesson. I'd be interested in seeing Laura teach a lesson, use the assessment from the lesson, then build a second or third lesson to build on the information she gains from the assessments.
Overall Rating:	Proficient
Suggestions for Improvement:	Laura was very professional throughout the 2.5 weeks in our classroom. In the future, Laura may want to consider building relationships with school colleagues and parents as these relationships are a large part of the profession. Laura was very easy to work with, she showed a genuine interest in being a part of the class, and made building relationships with students a priority.
Do you believe this practicum student has the knowledge, skills, and attitude required to become an effective student teacher?	Yes
General Comments:	Laura was a great addition to our class and provided students with rich learning opportunities. Thank you Laura for all of your hard work!
